

Collection System Evaluation

Technical Perspectives

- **↑ Gravity** **RECOMMENDED**
 - No tank or pump in yard – no access easement required
 - Lower cost for future connections
 - Higher up-front cost
- **↓ STEP/Grinder**
 - Septic tank/Grinder pump in yard – access easement required
 - Higher cost for future connections
 - Lower up-front cost
- **↑ Combined System (possible if start with Gravity)**
 - Gravity in denser downtown area
 - STEP in less dense outlying areas
 - Costs about the same for STEP/Grinder
