December 23, 2008

Mr. Joel Peterson, Associate Planner
Jefferson County Department of Community Development
623 Sheridan Street
Port Townsend, Washington 98368

Dear Mr. Peterson:

RE: Jefferson County Public Works, Jefferson County
Port Hadlock UGA Facility Plan -2008 Revision,
DOH Project #: R07-001(a); Conditional Approval

The Port Hadlock UGA Facility Plan – 2008, received in our office on September 15, 2008 has been reviewed in accordance with the provisions of WAC 246-271 and for conformance with the Water Reclamation and Reuse Standards, and is hereby **APPROVED.**

Provided that:

1. An Engineering Report is submitted for review and approval of project design that addresses:
 - a. Requirements of the *Water Reclamation and Reuse Standards*, Section 1-Article 8
 - b. Reconsideration of chlorine as a disinfectant in light of potential for creation of disinfection by-products and the requirement to conform to the ground water recharge criteria.

Again, we recommend that a water reclamation marketing and public outreach program be initiated as soon as possible to identify and locate probable and specific reclaimed water users as well as provide the public with fundamental information regarding the development and use of this new water resource.

Please note that this approval addresses issues of concern of this department and is not intended to either supersede or replace requirements of or approvals required from the Washington Department of Ecology.

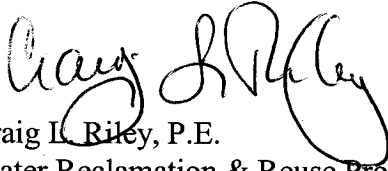

Mr. Joel Peterson
Jefferson County Department of Community Development
